Description of Duties:

This is a professional position responsible for coordinating and performing the clinical and functional screening and evaluating of admission applicants, including those with special needs such as wound care, respiratory care, severe medical complications, and behavioral needs, who apply for or have been referred to admission to Monroe Community Hospital (MCH). Duties involve collaborating with supervisors in determining whether or not MCH is an appropriate placement for each applicant based on the types of services needed. Duties are performed both at MCH and at residences. The employee reports directly to, and works under the general supervision of the Medical Social Work Manager or other higher level staff member.

Scope of Examination:

The **written, multiple-choice test** will cover knowledge, skills and/or abilities in such areas as:

1. Educating and interacting with the public

These questions test for knowledge of techniques used to interact effectively with individuals and/or community groups, to educate or inform them about topics of concern, to publicize or clarify agency programs or policies, to negotiate conflicts or resolve complaints, and to represent one's agency or program in a manner in keeping with good public relations practices. Questions may also cover interacting with others in cooperative efforts of public outreach or service.

2. Interviewing

These questions test for knowledge of the principles and practices employed in obtaining information from individuals through structured conversations. These questions require you to apply the principles, practices, and techniques of effective interviewing to hypothetical interviewing situations. Included are questions that present a problem arising from an interviewing situation, and you must choose the most appropriate course of action to take.

3. Medical terminology

These questions test for knowledge of words, phrases, and abbreviations used in medical diagnosis and therapy. Questions may cover such topics as diseases, symptoms, pharmaceuticals, medical specialties, anatomy, treatment modalities, medical supplies, and medical equipment. Prefixes and suffixes used in medical terminology may also be included.

4. Preparing written material

These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

Calculators and Reference Materials:

Most civil service written tests do not require the use of a calculator or slide rule. However, the use of calculators is **ALLOWED** for this exam. Candidates have the option of bringing a hand-held, quiet, battery or solar-powered arithmetic calculator or a slide rule to the test room. Candidates will not be permitted to use calculators containing spell check, dictionary, language translator, address or telephone book, personal digital assistants, or typewriter keyboard features, or any similar devices. You may not bring books or other reference materials.

After the names of residents have been exhausted the Commission must then certify in regular rank order the names of non-residents on the list.
