Description of Duties:

This is an administrative level position involving direction, planning, budgeting, and supervision of pupil transportation services for eligible students, including the handicapped, residing within a suburban school district. Employees of this class direct operations activities of routing, scheduling, and busing, and direct the bus maintenance and inspection program for district owned fleet. The director also oversees the bus operator driver safety training program and the maintenance of records necessary for obtaining State Aid. This position differs from that of Transportation Director I primarily by the smaller size of the operation, the smaller numbers of students transported, and direct involvement in day to day operations of the department. Work is performed under general supervision from an administrator with wide latitude allowed for the exercise of independent judgment in providing safe, adequate, and cost-effective transportation. Direct supervision is exercised over operations and maintenance staff.

Scope of Examination:

The **written, multiple-choice test** will cover knowledge, skills and/or abilities in such areas as:

1. Bus driving practices, techniques and traffic laws

These questions test for knowledge of the principles and practices involved in the proper and safe operation of passenger buses; and the rules and regulations of the New York State Motor Vehicle and Traffic Law governing passenger bus operation, highway safety, and rules of the road.

2. Bus driver recordkeeping and scheduling

A test that requires candidates to work with simple records using general record-book or card-type formats. Questions are based on given records, which usually must be completed by the candidate before the questions can be answered. In order to answer all questions in this subtest correctly, the candidate generally must:

a. Follow written directions to understand the purpose and use of the record, and to understand the question; b. Make correct entries in appropriate sections of the record; c. Identify which entries are required to answer the question.

A knowledge of bookkeeping, account keeping, or other technical information or terminology is not necessary to answer these questions. A knowledge of simple arithmetic functions may be required.

3. Customer service

These questions test for knowledge of techniques used to interact with other people, to gather and present information, and to provide assistance, advice and effective customer service in a courteous and professional manner. Questions will cover such topics as understanding and responding to people with diverse needs, perspectives, personalities, and levels of familiarity with agency operations, as well as acting in a way that both serves the public and reflects well on your agency.

4. Following directions (maps)

These questions test your ability to follow physical/geographic directions using street maps or building maps. You will have to read and understand a set of directions and then use them on a simple map.

5. Preparing written material

These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

6. Supervision

These questions test for knowledge of the principles and practices employed in planning, organizing, and controlling the

(BOCES #1)**

activities of a work unit toward predetermined objectives. The concepts covered, usually in a situational question format, include such topics as assigning and reviewing work; evaluating performance; maintaining work standards; motivating and developing subordinates; implementing procedural change; increasing efficiency; and dealing with problems of absenteeism, morale, and discipline.

7. School Transportation management

These questions test for knowledge of the principles and practices involved in managing a school transportation system including regulations of the New York State Departments of Education, Motor Vehicles, and Transportation covering the operations, personnel, and equipment involved in school transportation programs.
