Description of Duties:

This position is responsible for ordering, receiving, storing and disbursing stock as well as picking up and delivering mail, parts and inventory for an assigned department or jurisdiction. Duties include timely and accurate record keeping for inventory control, data entry, and other clerical duties related to the receiving and shipping of stock, operating a motorized forklift truck, and moving weights of up to eighty (80) pounds. During the probationary period employees must complete a powered industrial truck training program and demonstrate operating proficiency to the employer, as outlined in the United States Department of Labor Occupational Safety and Health Administration (OSHA). The employee reports directly to, and works under the general supervision of a Senior Inventory Control Supervisor or other higher level staff member.

Scope of Examination:

The **written, multiple-choice test** will cover knowledge, skills and/or abilities in such areas as:

Name and number checking

These questions test for the ability to distinguish between sets of words, letters, and/or numbers that are almost exactly alike. Material is usually presented in two or three columns, and you will have to determine how the entry in the first column compares with the entry in the second column and possibly the third. You will be instructed to mark your answers according to a designated code provided in the directions.

Arithmetic computation with calculator

These questions test for the ability to use a calculator to do basic computations. Questions will involve addition, subtraction, multiplication and division. You may also be asked to calculate averages, to use percents, and to round an answer to the nearest whole number. **You should bring with you a hand-held battery- or solar-powered calculator for use on this test.** You will **not** be permitted to use the **calculator** function of your **cell phone**.

Keeping simple inventory records

These questions test for the ability to follow instructions in keeping simple inventory records of different materials received and distributed from a central location. The ability to add, subtract, multiply, and divide will be required. You may have to compute total costs from quantities (number of units) and cost or price per unit. Knowledge of specific record keeping systems and techniques will not be needed.

Calculators and Reference Materials:

Most civil service written tests do not require the use of a calculator or slide rule. However, the use of calculators is **RECOMMENDED** for this exam. Candidates have the option of bringing a hand-held, quiet, battery or solar-powered arithmetic calculator or a slide rule to the test room. Candidates will not be permitted to use calculators containing spell check, dictionary, language translator, address or telephone book, personal digital assistants, or typewriter keyboard features, or any similar devices. You may not bring books or other reference materials.

This written examination is being prepared and rated in accordance with Section 23(2) of the Civil Service Law.
