Description of Duties:
This is hazardous work involving the controlling and extinguishing of fires, protection of life and property, and the operation and maintenance of firefighting apparatus and equipment. When engaged in firefighting or fire prevention work, employees receive detailed instructions from a superior. Duties also involve routine maintenance on the station and equipment. Firefighters must meet the training standards set by the Office of Fire Prevention and Control as authorized by Section 159 (d) of the New York State Executive Law within eighteen (18) months of appointment. The employee reports directly to, and works under the general supervision of a Fire Chief or other higher-level staff member.

Scope of Examination:
The **written, multiple-choice test** will cover knowledge, skills and/or abilities in such areas as:

Ability to learn and apply information
These questions test for the ability to learn new information and apply it to answer questions effectively. Candidates will read information presented in a Training Lesson and then answer questions regarding the information and procedures covered in the Training Lesson. All information needed to answer the questions will be provided in the Training Lesson, and candidates will be able to refer to the Training Lesson when answering the questions. Some of the questions may require candidates to combine information from different portions of what has been learned in the Training Lesson. No prior knowledge of any specific job or subject matter is needed.

Basic arithmetic
This section requires candidates to use basic arithmetic (add, subtract, multiply, divide) to find a missing value in a table of numbers. Candidates will not need to refer to the Training Lesson or any other section of the test to answer the questions in this section. All information needed to answer each question will be contained in this section. No knowledge of firefighting or any other job is required. **Candidates should bring a hand-held battery- or solar-powered calculator for use on this test.** Candidates will **not** be permitted to use the **calculator** function on their **cell phone**.

Reading comprehension
These questions test for the ability to understand written materials (e.g., sentences, passages) and answer questions about the information presented. Candidates will be provided with reading passages, followed by questions related to each passage. Each question will require candidates to demonstrate that they have read and understood the information contained in the passage.

Situational judgment
This section tests for the ability to identify appropriate and effective responses to work-related challenges. Candidates will be presented with several scenarios that reflect the types of challenges one could encounter in a work environment. They will then be asked to rate the effectiveness of a number of possible responses to each scenario.

Calculators and Reference Materials:
Most civil service written tests do not require the use of a calculator or slide rule. However, the use of calculators is **RECOMMENDED** for this exam. Candidates have the option of bringing a hand-held, quiet, battery or solar-powered arithmetic calculator or a slide rule to the test room. Candidates will not be permitted to use calculators containing spell check, dictionary, language translator, address or telephone book, personal digital assistants, or typewriter keyboard features, or any similar devices. You may not bring books or other reference materials.
